

3. Aim :

To create a simple cloud software application for Employee management.

Procedure :

⇒ Go to zeho.com

⇒ Sign in with your email and password.

⇒ Click creator icon

⇒ Click creator access button.

⇒ Select either 'click from scratch' or 'create from gallery'.

⇒ Select the category based on your web page.

⇒ Select the template and upgrade.

⇒ If you need to publish, select publish icon at the environment.

✓ The created web API is Employee management.

You can register for employment by given the required details
